

# User Story

<b>1</b>	As a client, I would like the ability to effortlessly create and manage multiple projects, allowing me to remove them from my profile once they are successfully completed.
<b>2</b>	As a client, I aim to have access to the scores of freelancers who have submitted requests for my project, allowing me to select the most suitable freelancer for the job
<b>3</b>	As a client, I aim to receive detailed information on the estimated time and cost from freelancers for completing my project in each request, enabling me to make well-informed decisions and select the most suitable freelancer for the job
<b>4</b>	As a freelancer, I want to see multiple projects and their details so I can choose the best project
<b>5</b>	As a freelancer, I want the ability to view details of multiple projects, allowing me to select the most fitting project for my skills and preferences
<b>6</b>	As a freelancer, I would like to receive clear notifications regarding the status of my project requests, informing me whether they have been accepted, declined, or are still pending
